Ontario Helping More Students Enter the Skilled Trades Faster

Grade 11 students can soon apprentice full-time and still earn their high-school diploma

March 08, 2023

[Office of the Premier](#)

*"The Ministry of Education is working to recognize **up to 30** credits required to earn the Ontario Secondary School Diploma (OSSD) for individuals with a Certificate of Apprenticeship or equivalent."*

The PLAR Process ... Equivalency and Challenge

A **minimum of four** Grade 11 and 12 credits must be earned by taking the necessary courses, with the following **exception**:

- At the discretion of the principal, mature students who present evidence of a **completed** postsecondary **diploma** and/or **degree** from an accredited **Canadian** postsecondary institution as well as those with an **Ontario Certificate of Apprenticeship** and/or **Qualification** may be granted **up to 30** credits for the OSSD.
 - **Enhancement:** A broader recognition of postsecondary completion.

Opportunity in every skill

Skilled Trades Ontario is the one-stop shop for opportunities in the skilled trades, and the promotion of rewarding careers which support Ontario's economy.

Electrician – Construction and Maintenance

An **Electrician – Construction and Maintenance** plans, assembles, connects, installs, repairs, inspects, tests, verifies, and maintains electrical systems in various settings (i.e. residential, commercial, institutional, industrial). Electrical systems include heating, lighting, power, communication, control, security systems and renewable energy and energy storage systems.

An Electrician – Construction and Maintenance also measures, cuts, threads, bends, assembles and installs conduits, electrical conductor enclosures and supports.

- lays out, assembles, installs, repairs, maintains, connects and/or tests electrical systems
- plans installations from blueprints, sketches and specifications, and installs all electrical and electronic devices
- systematically diagnoses faults in electrical and electronic components, as required
- measures, cuts, threads, bends, assembles and installs conduits and other electrical conductor raceways
- splices and terminates electrical conductors
- tests electrical and electronic equipment to ensure that they are functioning properly

\$2M in **2023-24** was allocated to support **Adult Dual Credits (ADC) 21+**
and **'After ADC'** programming

Program Guidelines

Purpose of this Guideline

The SCWI Guidelines provide key information to support Regional Planning Team (RPT) members to plan, develop and implement activities, forums, and Dual Credit programs. Specifically, this document provides details on responsibilities, funding eligibility and parameters for the development and implementation of programs to ensure that they are aligned with government directions, policies, and priorities. The Guidelines help RPTs, consisting of representatives of school boards, colleges of applied arts and technology, non-college training delivery agents, and appropriate community partners, including Indigenous Institutes in partnership with colleges, to make informed decisions about proposing, planning, and implementing relevant programs for eligible students.

NEWS RELEASE

Ontario Preparing More Students for Careers in the Skilled Trades

Expansion of dual credit program will help more secondary students participate in apprenticeship training

November 24, 2022

[Education](#)

Preparing High School Students for Health Care Careers Through Dual Credits

Ontario is helping students who want to work in health care get a head start. The government is providing an additional \$3.3 million over the next three years, beginning in 2023–24, to expand access to dual credit opportunities in health care-related courses for an additional 1,400 secondary students. This will help ensure hospitals, long-term care homes, and home care have the workers they need.

Eligible high school students who successfully complete these courses will earn credit towards both their Ontario Secondary School Diploma and introductory courses in college health care programs. This gives them a head start in their journey to becoming nurses, personal support workers, paramedics or medical laboratory technicians. This funding will also provide additional opportunities for up to 6,000 students in Grades 7 to 12 over the next three years to take part in hands-on health care-related activities across Ontario.

With the expansion of dual credit opportunities, close to 27,000 students in 2023–24 will have the opportunity to earn credits towards their Ontario Secondary School Diploma and a postsecondary certificate, diploma, degree or a Certificate of Apprenticeship. In addition to health care-related programs, there are also dual credit courses in other areas of focus, including skilled trades, technology and Early Childhood Education.

Preparing More Students for the Jobs of Tomorrow
