Prior Learning Assessment and Recognition

PLAR for Mature Students

PPM 132 - mPLAR

“A formal evaluation and credit granting process whereby students may obtain credits for prior learning.”

- Recognizing and valuing the knowledge and skills students acquire in formal and informal ways
- **Goal: help mature students move forward faster, removing barriers**
- *Different from PPM 129 – PLAR for Adolescents*
- *Key Goal of the Adult Education Strategy*

Who Benefits from PLAR?

- Adults upgrading for PSE or job promotion - need OSSD
- Immigrant students with previous education and learning, need Ontario prerequisites, and OSSD

And now.....

[Table of Key Revisions - Updated September 2023](#)

- Secondary students who are at least 18 on or after January 1st of the current school year up (up to August 31)
- Secondary students who are missing compulsory grade 9/10 credits and eligible for work life experience eqv credits
- Students who may have significant gaps - due to physical or mental health challenges

How can mPLAR help?

PLAR increases Student Success

- Reduces the amount of time required to obtain OSSD
- Makes the OSSD obtainable even to students with other commitments
- Recognizes and honours a student's rich and varied experiences.

FAQ re: Completed Cdn Post Secondary

Do I register the student??

The student would need to be added to a board's SIS to generate a new OST, grant the diploma and report it up to OnSIS. However, how that is done in a board's SIS, may vary depending on the vendor.

Granting 30 credits in your SIS may not be possible until the March OnSIS update.

FAQ re Revision 2?

What if a student has trade certification from outside Ontario???

Skilled Trades Ontario's Trade Equivalency Assessment is the first step towards obtaining a **Certificate of Qualification** for experienced workers who have not completed an Ontario apprenticeship ..but who have equivalent skills and experience. The Trade Equivalency Assessment determines whether the student can challenge the certifying exam for a trade. If successful in the exam, the student would pay a fee to be **issued a Certificate of Qualification in that trade.** The Trade Equivalency Assessment is only available in [trades with certifying exams.](#)

Step 2(c) Assessment cont'd:

Grade 11/12 Challenge Process

- **Mature students may challenge up to 10 grade 11/12 credits...**
- **No more than 10 credits may be granted for Challenge and Equivalency combined.**

***One grade 11/12 Challenge/mature student/fiscal year 1-10 credits at \$394**

Step2 (c) Challenge Process

The student must provide reasonable evidence that they would likely be successful in the challenge process.

- Certificates and/or other records of accomplishment

Students cannot challenge:

- a course in any subject in which the student has a credit in that subject in a higher grade;
- a course in which the student has already earned a credit

Policy Document – PPM 132

“All boards must develop and implement policies and procedures related to the equivalency and challenge processes that are consistent with this memorandum.”

Boards must also ensure that a clear statement is published in the school program and course calendars outlining when:

Mature students may undergo individual assessment for the purpose of obtaining Grade 9 and 10 credits

they may also present education and training credentials and/or other appropriate documentation for assessment through the equivalency process for the purpose of obtaining Grade 11 and 12 credits
And/or challenge for their prior learning to be evaluated and assessed for the purpose of granting credit for Grade 11 and 12 courses, including what opportunities for challenge are available at schools under the jurisdiction of the board or through partnership with another school board

Boards will determine the time frame for the completion of the four individual assessments for the specific Grade 9 and 10 courses required by students and of the challenge and equivalency processes for the specific Grade 11 and 12 courses required by students.
