IL Past, Present, Future - Where do we go now?

Having been involved in International Languages as a learner, teacher, administrator and advocate, ILEA's Executive Director, Constantine Ioannou will reflect on what we have learned over the years about the importance of programs in International Languages and what school districts need to consider for the future development and expansion of the programs. This presentation will also be a chance to highlight the work of ILEA Ontario that has been an active association collaborating with the Ministry of Education and various other organizations to advocate for the program and to develop good administrative and curriculum practices for successful programming in International Languages.
